

## Tips and Resources to be Successful

### Request Accommodations

- Register for your classes through WolfWeb in your WOU Portal
- Log into your WOU Portal and select “AIM” from “My Programs”
- Review important messages and sign any pending agreements
- Select the course(s) in which you would like to use accommodations
- Click “Step 2: Continue to Customize your Accommodations”
- Select accommodations for each class, click “submit” to finalize your requests
- Once approved by ODS, faculty will receive a Faculty Notification Letter (FNL)

- Communicate with your instructors:** Introduce yourself and make sure each instructor has received the FNL. Discuss your accommodation needs with each instructor as early as possible so both you and the instructor know how accommodations will be handled throughout the course. If you *choose* to disclose information about your disability, share at the level you are comfortable.
- Communicate with ODS:** If you have questions or concerns, please contact the Office of Disability Services right away so that we can provide assistance.

## Campus Resources

### **Student Health and Counseling Center | (503) 838-8313 | <http://www.wou.edu/health/>**

Student Health and Counseling Center

Services incorporate a holistic approach including medical services, counseling services, and health promotion.
