

Professors: John Leadley, Zenon Zygmunt
Assistant Professors: Bojan Illievski

Mission

Trains students in the tools of the discipline and encourages them to apply that knowledge to domestic and international economic and social problems. Introductory and intermediate courses in macroeconomics and microeconomics, a course in econometrics and report writing, as well as additional upper division electives in various economic specialties will prepare students for career goals.

Learning outcomes

1. Apply analytical and decision-making skills to resolve complicated business, financial and social problems;
2. Identify, collect, evaluate and interpret data from relevant sources;
3. Effectively communicate economic information to the public.
