ADDING A COURSE

Prefix/Number	Descriptive Title	Cr. Hours
BA 645	Operations Management	4

Catalog Description:

> Investigates managerial processes pertinent to internal operations of enterprises.
> Topics include competitiveness, strategies and productivity, locations and capacity decisions,
> forecasting, aggregate planning, inventory management, material requirement planning, management
> of quality and quality control, management of waiting lines, and lean operations.

Course Goals and Objectives:

> To introduce the tools which are necessary for managers to make operations decisions. Students will
> learn the concepts, enforcing the learning by problem solving and class projects.

Justification for adding the course (e.g. alignment with other institutions, program revision, etc.):

> Operations management is topically related to information systems and therefore serves as an
> appropriate elective course in the Masters of Management & Information Systems degree program.

Briefly describe other WOU faculty/programs consulted (attach additional sheet(s) if necessary)

> Computer Science (CS), co-sponsor of the M&IS degree, has been consulted. Business & Economics
> (BA) and CS departments jointly agreed to the change.

Faculty and Facilities Needed:

> Dr. Bahari-Kashani will teach.

Attach brief course outline.
