Re: 2016/17 QL PLC Findings

In the 2016/17 academic year, a professional learning community (PLC) was assembled to assess quantitative literacy (QL), one of the undergraduate learning outcomes here at Western Oregon University. The QL PLC sent a call for assignments and student work, reviewed and discussed the uploaded material, and aggregated data from the reviews. At this time, we would like to present the QL PLC findings as a short (5-7 minutes) informational item at Faculty Senate.
