C13697	HST 481 American Voices: Autobiography, Biography and Memoir in American History	Add to General Education	Approved

2. Shared Governance Summit

The first meeting will take place on Zoom, **Friday, February 12 from 10-11:30; the topic will be WOU: Salem.** Sue Monahan and Michael Smith will both be presenting. ASL Interpreting and Live Captioning will be provided.

Submitting questions via [this Google Form](#) are due no later than **5:00 pm on Monday, February 08th**. We have extended the deadline to invite more questions from faculty, staff, and students.

Have ideas about future topics for these shared governance summits? Great! Please email me at fspräsident@wou.edu; we will privilege topics that have intersectional value to our campus groups (students, faculty, and staff).

3. Cool Things to Share with the BOT

Thank you to everyone who shared the amazing above and beyond work that you're doing for students and the WOU community. I'm so excited to share these stories with the BOT.

4. Upcoming Info Item: FERPA and LMS Concerns

FSEC has heard from faculty questions and concerns about how our FERPA guidelines impact the ways we can (and can't) add students to Moodle/Canvas. We're all concerned about student success and access, so FSEC has invited Amy Clark and Michael Reis to give an informational presentation on **February 23rd**. Please consider what questions and concerns faculty from your academic units might have.

5. Get Ready for Nominations!

March is the beginning of our season of nominations for open Faculty Senate leadership positions. Our Past President, Kristin Latham-Scott, will be requesting volunteers for the nominating committee in **our first March meeting**. Senators: Please start thinking about whether you would like to serve on this (very short-term) committee.
